PRO Bell'O CHIC EUROPEAN DEEP BROWN FINISH WOOD A/V CABINET

*T*his chic audio/video cabinet will elegantly display most televisions up to 65" or 175 lbs. Finely crafted of hardwood solids covered with a hand rubbed Deep European Brown veneer finish, and a thick tempered safety glass top that appears to float above the cabinet. The dark tinted tempered safety glass doors with adjustable interior shelves will hide up to 6 or more audio/video components while allowing remote control operation. The fabric covered center section will hide a center channel speaker and offers storage or room for additional components. Rear panels are removable for simple installation and component access. An integrated CMS® Cable Management System contains interior and rear slots to hide and route wires and interconnect cables, and to provide proper air circulation. Ships assembled.
